	3
1	(Pledge of Allegiance recited and moment of reflection
2	observed.)
3	MR. WECHSLER: Roll call, please.
4	MS. MARCIANO: Mr. Perry.
5	MR. PERRY: Here.
6	MS. MARCIANO: Mr. Rogan.
7	MR. ROGAN: Here.
8	MS. MARCIANO: Mr. Evans.
9	MR. EVANS: Here.
10	MS. MARCIANO: Mr. Gaughan.
11	MR. GAUGHAN: Here.
12	MS. MARCIANO: Mr. Wechsler.
13	MR. WECHSLER: Here. Dispense with
14	the reading of the minutes.
15	MS. REED: THIRD ORDER. 3-A. TAX
16	ASSESSOR'S RESULTS REPORT FOR HEARING DATE
17	HELD SEPTEMBER 14, 2016.
18	MR. WECHSLER: Are there any
19	comments? If not, received and filed.
20	MS. REED: 3-B. TAX ASSESSOR'S
21	REPORT FOR HEARING DATE TO BE HELD OCTOBER
22	27, 2016.
23	MR. WECHSLER: Are there any
24	comments? If not, received and filed.
25	MS. REED: 3-C. SINGLE TAX OFFICE

	4
1	CITY FUNDS DISTRIBUTED COMPARISON REPORT
2	2015-2016 YEAR TO DATE SEPTEMBER 30, 2016.
3	MR. WECHSLER: Are there any
4	comments? If not, received and filed. Do
5	any council members have announcements at
6	this time?
7	MR. GAUGHAN: Yes, I have one. On
8	October 8 from 6 to 10 p.m., which is this
9	Saturday, at 316 Williams Street in North
10	Scranton the Mary Mother of God Parish
11	school building with the old Holy Rosary
12	School, the North Scranton Neighborhood
13	Association Watch will be holding their
14	annual Octoberfest. This event is their
15	only fundraiser of the year and I hope that
16	everyone can get out to join them and there
17	is a lot of people that go out to this event
18	every year and there's a lot of activities
19	that they have, and just to give you an idea
20	in the newsletter that they publish just
21	since last year, their last Octoberfest, the
22	North Scranton Neighborhood Association has
23	held the following free events for the
24	community: Kids Halloween party, tree
25	lighting and children's Christmas party,

1	breakfast with the bunny, family fun day,
2	and they donate to various charities and
3	events such as the St. Francis Soup Kitchen,
4	our Father's House and the Kinship Kitchen.
5	So I would urge everyone to try and make it
6	out this Saturday, October 8, from 6 to 10
7	p.m. Thank you.
8	MR. WECHSLER: The Lackawanna
9	Heritage Valley Authority will hold an echo
10	friendly scarecrow making party on Saturday
11	the 8th. It's going to be from 1 to 3 and
12	it will be held at the Nay Aug Avenue
13	natural play area.
14	MS. REED: FOURTH ORDER. CITIZENS'
15	PARTICIPATION.
16	MR. WECHSLER: Joan Hodowanitz.
17	MS. HODOWANITZ: Joan Hodowanitz,
18	Scranton resident and taxpayer. The City's
19	independent audit is now 129 days late and
20	we are in the fourth quarter of this
21	football match, so do we have a date on the
22	working session?
23	MR. WECHSLER: Not yet. I'll be
24	awaiting, and I'll be watching out for any
25	renewal of the Rainey & Rainey contract,

which I do not support like many others, I heard today that the PUC did approve the Sewer Authority sale which now leads to some I would assume that the City questions. assumed that the sale was going through and I would like to know how the city plans to spend it's windfall. Looking at the Auditor General's compliance audit on the aggregate pension funds, they're still severely distressed at 24.3 percent funding, which makes them level three severely distressed. In order to get out of that category and move up to moderately distressed, it has to be at least 50 percent funded, and I did the math, which means that the city would have to dump at least \$79 million into the fund, I don't think that's going to happen, but that's what would be required, and we will not get to minimally distressed because it would be \$111 million, which is more than we are going to get, so as we approach the budget season I'm hoping that the following questions will be answered: How much money from the sale of the

Sewer Authority will you used to superfund

23

24

7 1 the pension plans if we only make \$96 million? What are the transactional costs 2 3 that we have to pay and what other crises do we have to dedicate some money to in the 4 5 2017 budget keeping in mind, that the budget has to be passed by this December 15. 6 7 That's why I said I assume the city has been 8 what if'ing and contemplating what to do 9 with that money for today and they should be 10 having some tentative plans. Maybe you can 11 comment on that. 12 Do we have a status of the rape kit, 13 Mr. Perry? 14 MR. PERRY: No, not at this time. MS. HODOWANITZ: 15 Okay. Do we have a 16 status on the OECD loans to the city? 17 MR. ROGAN: The request was 18 submitted and we haven't received anything. MS. HODOWANITZ: 19 No heard. And do 20 we have any ide when the mayor will present 21 his state of the city address? I think the news of 22 MR. WECHSLER: 23 today was kind of the trigger for that so it 24 should be soon. 25 MS. HODOWANITZ: I saw in today's

	8
1	paper that Scranton will be receive \$3.2
2	million for pension aid which can go towards
3	the MMO, that's good news, and I was
4	pleasantly surprised to see that the draft
5	sewer permit application was in the City
6	Clerk's Office for review by the citizens.
7	I think that initial decision for us to have
8	to make an appointment and go to
9	Wilkes-Barre was a pile of horse manure.
10	Thank you.
11	MR. WECHSLER: Les Spindler.
12	MR. SPINDLER: Good evening,
13	Council. Les Spindler, city homeowner,
14	resident and taxpayer. About two weeks ago
15	I mentioned about the terrible the job that
16	they did on the paving on Main Avenue,
17	PennDOT, and I neglected to say they left a
18	lot of street markings off on a few
19	intersections. The corner of Jackson Street
20	and North Main going towards Taylor, that
21	used to be two lanes, now there is no street
22	markings. It used to be a left turn and a
23	straight arrow. Now there nothing, people
24	just go in the middle and I figure go left
25	and people going straight you can't get

through.

1

And, also, on the corner of Oram and 2 3 North Main going towards North Scranton same thing, used to be two lanes there now there 4 5 are, again, no markings on the road, people just stay in the red light in the middle. 6 7 If you want to go straight you go to wait 8 until though people make the turn so maybe 9 we can get that taken care off, send a letter to PennDOT. 10 11 Two weeks tomorrow was a comment 12 that Councilman Gaughan was told in the 13 paper and I quote, he was talking about the 14 Sewer Authority, "There has been a complete lack of regard for the people of this city." 15 16 Well, Sewer Authority aren't elected 17 officials, you people are elected officials 18 and I think you people have disregard for 19 people in this city. I have talked about 20 the illegal garbage tax for years and years 21 and years and many times on this council 22 nothing has been done. You people aren't 23 doing anything. 24 I brought up a dangerous dog 25 legislation, nothing has been done. I have

talked about for ten years since my dog was attacked by the pit bulls, and while I'm on that subject, I brought it up years ago and it was Attorney Minora said we can't be breed specific. Well, maybe we should get in touch with Montreal, Canada, because in Tuesdays paper "Montreal bans pit bulls after mauling."

1

14

15

16

17

18

19

20

21

22

23

24

25

And I'm going to read two paragraphs. "A knew law that took effect Monday in Montreal prevents residents from adopting or buying pit bulls and requires anyone who already owns one of the dogs to register the animal in order to keep it. The regulations approved last week were drawn up after a woman was fatally mauled by a pit bull in June and it go into effect across all 19 boroughs in the Canadian city. The law requires owners to pay higher fees for the dogs than for non-pit bull types, and go through a criminal background check, and keep a muzzle on a dog outside even in fenced in backyards."

I think we should get in touch with the people in Montreal to see how we can go

about getting something like that because it
has to be done. They are viscous dogs.
People argue with me it's the way they are
brought up. No, they are bred to fight.
They have viciousness in their blood.
That's why they are called pit bulls. They
are bred to fight in the pits in England. I
looked into it after my dog was attacked.
Thank God she survived. So let's see if you
people can do something like that for the
people of Scranton.

Okay, pave cuts, another pet peeve of mine, I want to read a quote from Mr. Pocius. "We are not letting them speak on the ordinance by any means, Mr. Pocius told Council. We are getting the quality work from utilities and road restoration."

Well, obviously Mr. Pocius has ridden on the five, six, seven and eight hundred blocks of North Sumner. Those are four of the worst blocks in this city. There is so many dips in that road where the pave cuts were, and as I have said in the past, the seven and eight hundred blocks were newly paved last year. They are a

disaster. I would like him to ride on those streets and then make a comment that they are getting quality work for utilities. That's a joke. I disagreed with him when he was a councilman, because all he was was another puppet for Mayor Doherty, and I disagree with him as an engineer. I think he is totally wrong and so is the pave cut inspector, too. Tell them to go to North Sumner avenue, and tell me they are doing quality work. Okay, Councilman Rogan, you brought this up two weeks ago I think about people exiting Family Dollar on Main Avenue, if you are remember I brought that up months ago. MR. ROGAN: We actually received a reply from PennDOT on that. MR. SPINDLER: Oh, you did? MR. ROGAN: Yeah, I'll read it under motions, but they actually have an occupancy permit, but they don't have a permit for -to go on and off the street there and it's been -- ever since Brunetti's were there we didn't know until it was brought to their attention so there will be some action

	13
1	coming on that shortly.
2	MR. SPINDLER: Thank you. All
3	right, just one more quick comment, I heard
4	the stuff Bob Bolus said about council last
5	week and he has got his freedom of speech to
6	say whatever he wants, but I don't think
7	anybody is obligated to go anywhere. If
8	they are not the candidate of your choice I
9	don't think they have to show up. Now, I
10	like Bob Bolus, I have been volunteering at
11	this Christmas dinner for about 14 years now
12	and he does a great job with that, but I
13	disagree with what he said last week. Thank
14	you for your time.
15	MR. WECHSLER: Thank you. Ron
16	Ellman.
17	MR. ELLMAN: You probably were
18	hoping I went south and stayed there I know.
19	I imagine, I could assume, that council
20	perused six or seven thousand foreclosures
21	that were in the paper a couple of weeks
22	ago, and I wrote down about a dozen of them
23	that caught my eye that are al LLC's or they
24	are developers or real estate companies.
25	Now, get this one Integrity Insurance. They

owe \$92,000 in Thornhurst. Carbondale General, 83,000. Peachhill, LLC, 66,000. This B-A-L-A-J-I, Balaji Investments, they owe Carbondale \$47,000 and Scranton 15,000. D & D Realty, their name is all over that sheet and they owe \$15,000. Here's a guy right in Scranton, Wintermantle, \$140,000 in back taxes. Why is this allowed? In 2005 I paid my insurance through the loan company and I got all this paperwork and it wasn't paid, I went down and paid it again, \$2,300 with the interest and I can't get nothing done and here is people \$140,000 and they iust slide. It doesn't make sense. All of these are developers. 36,000, 67,000, 28, 53, 21, 16. Here is another one, Thoms Hill owns a property Limited Main Street, \$161,000. Why? Even Sprint they owe \$21,000. Why is it something done about it? And every time you turn around you

1

17

18

19

20

21

22

23

24

25

are giving developers grants and loans and forgiveness on loans, and just doesn't make sense. There is some poor guy there, I won't say his name, I don't want to embarrass him, he owed \$364 and his name was

on this list. \$364. That's shameful. You got two useless, worthless people there are dictating to 60 or 70,000 people how to run the city that don't live here and don't pay taxes. Why don't you send them to collect some money? Why don't you send them out there to some of these nonprofits for crying out loud? It's just doesn't make sense.

14

15

16

17

18

19

20

21

22

23

24

25

Like I always tell you, you just don't talk to the people out there and if this obscene sewer situation doesn't go through what are you talking about a 37 percent increase? Who is going to pay it? After another 1,000 or two people lose their houses next year we are going you to do, get Keystone Resources to pay? They got 50 Or Lackawanna College? They got a houses. prime property down here forever. These big buildings. University of Scranton is no These developers they are not help. achieving people. They are not bringing people here. People are moving from these old duplexes and apartments into the newer apartments that they offer for the same money because there is bringing in income.

Then some old couple is stuck with a duplex they can't pay for. They got the taxes and everything, I have talked to them. I bet Mr. Evans knows what I'm talking about. We are not achieving nothing. We are just moving people out of the property that's paying taxes and a bunch of freeloaders. It is just absolutely heartbreaking, and then let me just finish, I'm almost finished.

I see in the paper they want to they want to air condition the schools for \$20 million, which will be a lot more when they finish. These kids they can jog all over the city in the worst heat and play football and baseball and soccer and everything, they can't sit in school they need air conditioning, and how many people on this list do you think don't have air conditioning that are losing their homes for a bunch of whiney, sniffling little misfits that are complaining about heat.

22MR. WECHSLER: Thank you,23Mr. Ellman.24MR. ELLMAN: Thank you.

19I'm really troubled that Chapter 6120temporarily, allegedly temporarily suspends21the due process rights in Pennsylvania, and22I think that it's time for the Court itself23to be reviewed and a study be done because	17	create laws so they have some say in what's
20 temporarily, allegedly temporarily suspends 21 the due process rights in Pennsylvania, and 22 I think that it's time for the Court itself 23 to be reviewed and a study be done because	18	taking place in Pennsylvania courtrooms and
21 the due process rights in Pennsylvania, and 22 I think that it's time for the Court itself 23 to be reviewed and a study be done because	19	I'm really troubled that Chapter 61
I think that it's time for the Court itself to be reviewed and a study be done because	20	temporarily, allegedly temporarily suspends
23 to be reviewed and a study be done because	21	the due process rights in Pennsylvania, and
	22	I think that it's time for the Court itself
24 there is a lot of information where abuse	23	to be reviewed and a study be done because
	24	there is a lot of information where abuse
25 begins, and I don't know the Court really	25	begins, and I don't know the Court really

	18
1	wants to hear that and it's a problem.
2	You know, it is tragic that most
3	murder victims of domestic violence are
4	women, but I did listen to a program on WILK
5	at one time that brought some of this to
6	light where a woman, a PhD, had written on
7	this issue and nobody really wants to accept
8	what she says, but the other thing is this
9	law needs to be reconstructed because in my
10	own opinion I don't think a PFA should ever
11	be modified and I don't think it should ever
12	be terminated for the life of the parties
13	involved, but I think the one thing that we
14	really need to do in Pennsylvania is get
15	special interests out of the courtroom.
16	That's one thing we need. And we need to
17	stop judicial activism by judges, and I'm
18	not interested in what the opinion of a
19	judge is, I'm interested in what the facts
20	present and I'm interested in that, well, in
21	PFA Court there are no facts just testimony,
22	but I think that the facts should support
23	the verdict and if the facts don't support a
24	verdict it shouldn't be entered because I
25	think that there has been a lot of mistakes

made, and not only that, I don't think that protection from abuse orders should temporarily grant custody to anyone. Ι think we've got a lot of issues here tied together and I think that what really needs to take and I think that what really needs to take place here in this community a lot of people are troubled by what's happening in the City of Scranton, but I think we are troubled because we have thousands and thousands and thousands of children across Pennsylvania caught in a war zone, and I think it's wrong for one person to manipulate the judicial system to get something they want, regardless of the gender. And I'm just curious, how many other children that are under 18 or even above 18 have had a lack in parenting because they got stuck in a whirlwind or held by the judicial system based on not fact but opinion, okay? That's the thing that matters here this fact, and all of these temporary orders and judicial activism, you know, it all leads to a bad place and for the life of me I don't know

MR. WECHSLER: Thank you. Anyone else? Andy Sbaraglia, City of Scranton, fellow Scrantonian. A bad penny keeps showing up, namely, the South Side Complex. You know, the University wanted to buy the complex, they couldn't buy it because they had lot of government money, state and federal in it, so our new mayor hired the lobbyist to bad mouth the complex and then, of course, he had to set it for auction, and bid at the auction and so forth, but the University wanted, and we had to give it up. That's the part.

Now, they come before you looking for grants. They weren't fair to the citizens of Scranton. Originally, the money that they got was supposed to go into a lockbox, you heard Mr. Bolus talk about it many, many times, it never got to the

	21
1	lockbox. Mr. McGoff spent the last of it.
2	Now, somebody wanted a garage, the
3	Globe Store garage. If we are going to
4	revere against that, too, so our dear
5	elected officials goes around some of this
6	for a dollar to the man.
7	Believe me, this cannot just let go
8	like it is. This borders on malfeasance and
9	that's the whole thing because you got to be
10	honest and we can no longer believe council
11	or the mayor and that's the sad part. Both
12	mayors, Mr. Doherty, Mr. Courtright, was not
13	fair to the people of Scranton. This deal
14	with the parking, the lease made, we are
15	losing more money than we are getting. You
16	know that and I know that. If you can add
17	one and one and get two, you are an expert
18	when it comes to this deal, but still you
19	went along with it. You should be brought
20	up. I believe really this borders on
21	malfeasance and there should be hearings
22	that decide if it is or isn't.
23	When Mayor Walsh was getting ready
24	to sell the Luzerne Street playground,
25	that's on Luzerne Street to Mr. Cadden,

there was a judge that came and said if anybody wishes to have standing to block this he would let them go. Them judges are no longer here. That's what really irks me that our people that are elected to protect the citizens, whether in the courts or in the state did not open their mouth and I find that very, very hard to understand how anybody can sit back and watch the garage that costs us millions of dollars to build be sold for a dollar, and the front half is the same as the mall. There is nothing wrong with the front half of that garage. The enemy is the public. There is nothing at all wrong with it but yet we seem to feel it was worthless. Well, you know what? 0ur government in Scranton is worthless. That's the sad part about it. They are not worth any respect. Thank you. MR. WECHSLER: Anyone else?

MR. DOBRZYN: Good evening, Council. Dave Dobrzyn, resident and taxpayer. A lot of things have been said about curb cuts in the last two weeks, I hope that that isn't the condition they plan to leave I think it was the three and four hundred block of Crown Avenue in the condition it is currently, and right up from Perry Business site there on Alder Street or Hickory Street is one hell of a pothole and it's been there for two months now so what do we do about it? Well, I figure we should set up a voicemail for citizens to call in and report the addresses of these people. You know, put a key computer to it and have them call a voicemail hotline and then report their whatever else is going on piecemeal every week and on these directions on the turn directions that are maintained, the thought occurred to me it would be a lot easier if it was overhead signs like down on Washington Avenue right on the 400 block where you are going east there was a lane painted there. The right-hand lane was pointed for a turn and it's all worn off now and everybody just going straight through it and cuts the other guy off and in the right lane, but the correct lane.

On the sewer, I think I read somewhere where we have 70,000 sewage

customers, correct me if I'm wrong, it seems I'm not right anymore, well, I'd like to point out that at \$100 a year that generates \$7 million a year over 25 years or over \$75 million, a little bit short on the pension. The sale has not use and is probably a negative situation.

23

24

25

Also, I hope that the lack of the maintenance with these floods and backed up sewers in people's houses doesn't delay projects because a projects like that needs to be -- needs to be done as soon as possible, basically full of sewage waters, basically house that is condemnable and that isn't going to help the owner.

Back trash bills, it would be nice to hear a report on how much has been collected so far and who has paid up and who isn't. We have to run their names in the paper. I'm tired of hearing that people aren't paying trash bills for years and years and years. We started collecting and hopefully they'll do it vigorously.

> Last week I went up Mulberry Street in the evening, one out of six students

pressed the crosswalk button to push in the little LED slash, so one out of six. Six students crossed and one time it was activated. So it would be nice to have them televise that they should use them.

And with all of this issue with terrorism and stuff going around the country, bombs being placed and I wonder why the property taxes, why do we give tax exemptions to religious institutions that preach acts of violence such as Florida and California and recent bombings in New York, it makes no sense. They all seem to know nothing about it, maybe we ought to hold them hostage to their parishioners that we could always have them taken back seems as they approve of so much violence. Thank you and have a good night.

MR. WECHSLER: Thank you. 19 Anyone else? 20

MS. SCHUMACHER: Good evening. 22 Marie Schumacher, resident of the soon to be 23 North West. You remember that town in New Jersey that was encouraged to sell all of 25 their assets and they were financially

	26
1	healthy for about a year or maybe two and
2	then they got state help. We are following
3	in that path certainly. Well on the way.
4	Now, as to the public utility
5	commission, that's half right. I've been
6	trying to contact the public utility
7	commission. I have called down to
8	Harrisburg and they say we are understaffed.
9	Nobody can talk to you for well, how long
10	will it be? I will be at least a week, left
11	my number. Did I ever hear from them? No.
12	So I think they should be renamed, it should
13	just be the utility commission because they
14	are certainly not representing the public
15	and it is abominable what they did today in
16	kicking the can down the street on what is
17	the most critical item for the ratepayers,
18	and that is the rest of PAWC's customers
19	going to pay for our improvements, and if
20	they are that's quite impressive. That
21	means there's I think it was Jim's
22	article back in August said there were ten
23	other ten other communities that are
24	distressed status that had CSO's. If PAWC
25	were to buy them then guess what we would be

doing? The precedent has been set. We'll be sharing in other costs, too. It's just not right. And I would encourage you to not take -- even it you get a check, leave it sit on the desk until the PUC rules on this thing because it is wrong and you have a duty to protect the ratepayers and the citizens of that city, the few who have stuck around.

Now, I want to go over the calendar. You know, it's five and a half weeks until we get the budget and then after the budget is received we have one public hearing and four more weeks. Now, I just want you to know I'm not as naive as make you think we all are as to what you have been doing on pushing everything down the stream. You push it down far enough, those four meetings after you receive the budget, four meetings and one public hearing that's five meetings at five minutes each we have 25 minutes to address a number of significant items, including the budget itself.

We have done refuse fee, kick it down the stream. The rental registration,

1kick it down the stream. Do we have the non-uniform contract yet with the union? Yes or no?3Yes or no?4MR. EVANS: No.5MS. SCHUMACHER: No.6MR. EVANS: Maybe shortly.7MS. SCHUMACHER: Yeah, maybe8shortly, so we don't know what's happening9with that. They are all of these open10issues, the OECD and whether or not the OECD11solicitor took the action that's required to12legally get the people committed so that the13statute of limitations doesn't let people14who have owed us hundreds of thousands of15dollars walk away free and clear. And there16is just so much in 20 minutes we are going17to get once that budget comes. That is18wrong.19Now, I do have a few questions and,20of course, the audit is another one. We21previously were told it would be here by the22end of September, certainly that's not23happened. Can you tell me what percentage24of projected liquid fuels revenue is being25eaten up by the light project?	-

	25	going to take I believe 90 days until

F	
	30
1	everything is said and done and then this
2	will be another comprehensive analysis.
3	MS. SCHUMACHER: Well, again,
4	there's the bell that tells us how many we
5	are going to be able to cover no matter what
6	kind of crazy things you people come up with
7	the budget or put in or take out we get 20
8	minutes. It's wrong. Thank you.
9	MR. WECHSLER: Anyone else?
10	MR. ST. FLEUR: How you doing? Do I
11	state my name?
12	MR. WECHSLER: Yes.
13	MR. ST. FLEUR: My name is Gary St.
14	Fleur, resident of Scranton. I'm just here
15	today because I don't want to take up too
16	much of your time to formally announce a
17	petition that I have set forth for the
18	bankruptcy of Scranton. Obviously, as a
19	whole, I believe that all of the activities
20	and actions that this government has set
21	forth in the past has demonstrated a pattern
22	of lack of fiscal responsibility. Soon you
23	will no money to service your debts or your
24	costs, therefore, by leasing your parking
25	garage or parking meters, selling the sewer

1 authority, it's demonstrative of the staff. Therefore, I have already submitted this 2 3 petition today and got the signatures to go before city council. 4 5 Now, you can do the wise thing which 6 is the demenable act of filing bankruptcy, 7 because the fact is that Chapter 9 8 bankruptcy exists for municipalities for who 9 cannot service their debts. The Scranton 10 government has the same amount of government 11 personnel they had when this government and 12 this city had a population of 150,000 13 people. The population is down to 76,000 14 and still has the same amount of government 15 personnel. 16 MR. ROGAN: That statement is 17 untrue, the staffing in many departments in 18 the city has decreased significantly. 19 MR. ST. FLEUR: By how much? 20 MR. ROGAN: Particularly the police 21 and fire department have lost over 100 men 22 in the last few years. 23 MR. ST. FLEUR: One hundred men. but 24 the pension is still underfunded by 85 25 percent; correct? So despite this cost

32 1 reduction we still have a pension 2 underfunded by 85 percent, both the firemen 3 and the police department are unfunded. Now, if you think that's a viable situation 4 5 going forward to every happen to finance these pensions? So honestly you should do 6 7 the right thing and file bankruptcy and this 8 is a way to do so. 9 MR. WECHSLER: But bankruptcy does 10 not relieve the pension funds. MR. ST. FLEUR: 11 That's no my 12 question, sir. I'm not going to say what 13 happens in bankruptcy court proceedings. 14 MR. WECHSLER: Well. that's one reason why bankruptcy is not an option 15 16 because the pension cost remain. 17 MR. ST. FLEUR: The people are going 18 to -- I think it's people right to decide on 19 the fate of Scranton. They are paying for 20 It's their tax dollars so it's it, right? 21 way fairer if this goes to ballot and let 22 the people vote for it. It's a democratic 23 action. It's a democratic country and I 24 can't see anything that would be mor 25 democratic than for the people of Scranton

-	
	33
1	to finally say through their earnings to
2	determine whether or not they want to
3	participate in this situation. Thank you.
4	And I have a copy for you if you would like
5	to go over it?
6	MR. WECHSLER: We received one.
7	MR. ST. FLEUR: Okay. All right.
8	So you have a great night.
9	MR. ROGAN: Thank you.
10	MR. WECHSLER: Anyone else?
11	MS. REED: FIFTH ORDER. 5-A.
12	MOTIONS.
13	MR. WECHSLER: Mr. Perry?
14	MR. PERRY: Yeah, a couple of things
15	tonight. I'll start it off with something
16	that happened over the weekend in the 2100
17	block of Cedar. There was a hold up
18	situation that was resolved in a peaceful
19	manner without incident and it was just I
20	mean, it was very close to my house and my
21	neighborhood. There was a man held up with
22	hostage with weapons and that was standoff
23	was overnight, into the next morning, and it
24	was finally resolved peacefully. That just
25	you know, it's hats off to our police

	34
1	department and taking care of that situation
2	without injury.
3	Secondly, yes, the PUC did approve
4	the sale of the Scranton Sewer Authority so
5	that moves us to our next step if not a
6	bigger step what to do with any proceeds.
7	I, for one, we need to go through this very
8	cautiously and very slowly. This is the one
9	and the only chance we're going to get at
10	this amount of money at any time I see in my
11	lifetime or anybody's lifetime. It is my
12	hope that the five of us are instrumental in
13	the decision making on what's going to
14	happen. It is ultimately going to be up to
15	the administration, but I expect us to be in
16	on the decision and what's going to I
17	would like half act is what I'm saying. Too
18	many times, too many times we get things
19	down and it's a yes or it's a no, but I want
20	to be in on the act is I guess what I'm
21	saying. It's just too big of a decision not
22	to be included.
23	Someone brought up the South Side
24	Complex, in 2006 when the city lost that
25	asset and sold it I was against that. I

wanted that to stay within the City. I was somebody who used that field as a boy, as a teenager. I did run and was involved in a softball league and I did not want to see that turned over the to the University of Scranton.

Ten year's later, that is going to get -- my mind has been changed. They are going to invest \$14 million into that complex and also know as the William T. Schmidt Complex. It's going to be open to the public, as well as use of the University, which I think is hugely important.

If anybody wants to know more on this, there is a great link on the Scranton Times' website which portrays the softball fields, soccer fields, baseball fields, playground. It's very impressive and it's going to be a very good thing for our community.

Also, I want to give a shout out and a thank you to Representative Flynn and his office and the amount of volunteers that came out over this week and weekend to

spruce up downtown. They pulled a lot of weeds and did landscaping and they painted over a lot of graffiti so I want to thank them for that. That gave the city new appeal and it will lead to confidence around and it does look nice.

As far as addressing some speakers' comments, Mr. Spindler brought up the turning lane painting situation on North Main. I'm not sure if that project is finished yet, it seems to be, but if we could just send something out to PennDOT to see is it finished or is it something that's going to be both turning lanes, or are they going to put turning lanes in, so I could see how that could turn into a public safety issue because too many of us are used to the old path of the street pattern and if we're following the old street pattern that's not painted and we have people from out of town, people that are not used to it that's going to create issues so I just want to make sure that that gets -- that job gets completed.

And as far as with the five, six, seven, eight of North Sumner, I'm not

-	
	37
1	familiar with it, but I will go check it out
2	and take some pictures and report back to
3	Mr. Pocius and Mr. Hazzouri to see what is
4	going on there and I think someone brought
5	up three and four of Crown, I'll also go by
6	and check that out to see what's going on
7	there. And that's all I have tonight.
8	MR. WECHSLER: Thank you. Mr.
9	Rogan?
10	MR. ROGAN: Yes, a number of items.
11	Mr. Perry touched on a bunch of them
12	already, just following up regarding the
13	paving cuts on Sumner, I'm on the corner of
14	Schlacher and Bromley so I'm only a block
15	way and I did the secretary did inform us
16	that that paving issue is starting very
17	shortly, so it will be done before the
18	winter, which is good news because those
19	roads you can't even pass on them they are
20	so terrible.
21	I'd also like to thank the police
22	department for a job well done over the
23	weekend. A very dangerous situation. It
24	was taken care of professionally and without
25	any incident. I say it all the time and

	38
1	it's because I truly believe it we really do
2	have the best police department in the
3	country in Scranton.
4	Another issue did come up during
5	that standoff though, and that was the issue
6	of residents live streaming the hostage
7	situation the standoff situation on
8	social media. Obviously, people have the
9	right to do that, to broadcast what's going
10	on in their neighborhood, but it really does
11	create a lot of safety concerns. For
12	instance, if somebody is say holding
13	somebody hostage or has a gun in and there's
14	a standoff and a neighbor is broadcasting
15	live on Facebook just sitting there with
16	their phone saying exactly what the police
17	are doing outside of their home, so that's
18	something that needs to looked into, what
19	can be done if anything to try and work
20	something out for the safety or our officers
21	in those type of situations.
22	I'm glad to see that there was
23	legislation on the agenda tonight for paving
24	for Oakwood development of Keyser Avenue.
25	This development hasn't been paved since at

	39
1	least since this development was formed
2	so I have a number of friends in that
3	development and driving up there is a
4	challenge so we are hoping waiting for
5	that project to get off the ground.
6	In regards to a couple of PennDOT
7	issues that were brought up, we had a number
8	of issues that we sent in. One of the
9	biggest ones that I was concerned about was
10	brought up by Mr. Spindler was the faded out
11	parking pad on North Main Avenue. So I'm
12	very glad that we received it. Just for
13	those who aren't familiar with it, when
14	Brunetti's supermarket was there for decades
15	there was a big arrow on the building that
16	says "Exit this Way". So you would enter on
17	Main Avenue and then you would exit into
18	off an alley and it was a one-way parking
19	lot. When Family Dollar purchased that
20	property and made their store they painted
21	the entire building over so that one-way
22	sign isn't there. If you're not from the
23	area, you pull into that parking lot and you
24	assume you can exit on Main Avenue and there
25	is no signal whatsoever on Main Avenue so if

	40
1	somebody is pulling out thinks they just
2	have the right-of-way to go because there is
3	no traffic device whatsoever.
4	I thought the solution was as simple
5	as putting up some signage, but it's a
6	little more detailed than that so I'll read
7	the response. "This is in regards to the
8	Family Dollar parking lot. The Department
9	cannot locate a highway occupancy permit for
10	the Family Dollar access on North Main
11	Avenue. The State Highway Law of 1945
12	requires that a highway occupancy permit be
13	obtained by a facility or access that's
14	following the legal right-of-way under
15	legislative ordinance of Pennsylvania.
16	Title 67, Chapter 441 of the Code, addresses
17	access to state highways from private drives
18	on both roads. The Department of
19	Transportation is responsible for the
20	issuance of these permits. Use of an
21	unpermitted access to the state highway is a
22	violation of regulations and the owner of
23	this property can be joined as a defendant
24	in any lawsuit for any accident resulting
25	from the unpermitted access from the

1hazardous condition created by it.2The Department's permit specialist3for this are will stop at the Family Dollar4to issue a citation and discuss the proper5procedure for obtaining a highway occupancy6permit."7So it is a little more in-depth than8the issue of just putting up an arrow on the9building again, and judging by the response10there has never been an occupancy permit and11it was just always there. When the neighbor12did shopping they knew the right way to go13in and the right way to go out, so I'm sure14that will be fixed the right way once and15for all.16And, finally, regarding the big news17tonight, obviously it's very good for the18City of Scranton that the PUC did give19approval by a four to one vote to go ahead20with the sale of the Scranton Sewer21Authority. Anyone who has watched these22meetings or attended these meetings for the23seven years I have sat on this board has24known that I have always been in support of25selling and privatizing the Sewer Authority.	Г

25 selling and privatizing the Sewer Authority.	24	known that I have always been in support of
	25	selling and privatizing the Sewer Authority.

There are many reasons for it, I have explained them all many times, but some of the biggest benefits of this plan are first and foremost the costs of many improvements that need to be done to meet federal regulations can be spread out. The state law does permit a private utility, including the sewer authority, to spread that cost among all the ratepayers so instead of just the ratepayers in Scranton and Dunmore paying for these improvements it can be spread out amongst all of Pennsylvania American Water's ratepayers.

Secondly, and it came out this week, our pension funds are woefully underfunded. Without doing something in the next couple of years the pension funds will run dry, and although one of the speakers tonight believes that just declaring bankruptcy is the answer, it's not. The City of Harrisburg tried that, it didn't work. A receiver was appointed and taxes went sky high and at the end of the day state law states pension payments are the first priority in a city. Whether you agree or

43111111111211221233412341234124155556155615556155		
2dry the pension payments need to made before3any other city operation is paid. It's a4legal obligation the city has to those who5worked in the city for many years.6As Mr. Perry touched on, you know,7the more difficult question is how do we8best use these funds to help the city on a9long-term basis. I have been against sales10in the past where, for instance, the11Scranton Municipal Golf Course, which was12which actually revenue into the city, which13the Sewer Authority does not, and that money14was just squandered. I'd personally do a15combination of shoring up the pensions,16paying down debt is the best solution, the17best use of the funds for the best use of18these funds. By paying down some debt, many19of the bond issues that were an issue over20the last five or ten years, the dedicated21tax millage, so when they are paid off that22off that could be a small reduction in taxes24for the residents of Scranton and by shoring		43

μ		

	44
1	yearly will be reduced and that will help
2	shore up the budget as well.
3	So it is very good news for the city
4	and most of the objections that were made to
5	this plan outside of the city by other
6	groups and other actors weren't that it's a
7	bad deal for the City of Scranton and
8	Scranton residents, they were saying it's
9	too good of a deal. They said that value,
10	we are getting twice the book value of the
11	asset, which is a positive thing for the
12	residents of Scranton and Dunmore as well
13	because they are part of the system.
14	And the other negative that was,
15	again, for those who don't live in Scranton
16	was that they didn't want those outside of
17	the Scranton/Dunmore area to subsidize the
18	improvements that would need to be made and
19	there is no question there is a lot of
20	improvement that needs to be made to our
21	sewer system in the City. We have all
22	talked about them. We have all been out to
23	different residences that have issues with
24	storm water in their neighborhoods.
25	Whether the Sewer Authority remains

the Scranton Sewer Authority or is sold, those issues need to be corrected. It's not a matter of what -- one really has nothing to do with the other. the issue has to be fixed, whether it's in-house or whether it's done it's part of another authority, so there are a number of issues that need to be straightened out regarding our storm water management in the city, and most importantly, we are going to meet federal regulations for we have a combined sewer system in the city whereas the sewage that comes from our toilet is going into some of the same pipe as the sewage that's -- where rain water is running off the streets and you get too much rain backflows right into the river where it could in some cases as we've had in the past storms backed up into neighborhoods, and that's certainly not acceptable, and my hope is that this deal will move forward separation of the systems to move us finally into the 21st century.

I'm sure there will be much more to discuss on this issue as time goes on, but the PUC decision today certainly was a good

[46
1	decision for the City of Scranton and the
2	ratepayers for the Sewer Authority. And
3	that is all.
4	MR. WECHSLER: Thank you. Mr.
5	Evans?
6	MR. EVAN: Thank you. I attended
7	the Auditor General's news conference on
8	Monday afternoon related to the city's
9	pension. Some takeways that we've may have
10	heard already planned are a slight
11	improvement to the plans but all are still
12	severely distressed. The AG had a list of
13	15 items that he referred to at the news
14	conference that would help us with the
15	pensions and I when I went on the website I
16	couldn't find so I am going to put a call
17	into the AG's Office to try and find out
18	where that information is so we have a
19	better handle on what he is proposing.
20	And I continue to ask why the state
21	is very slow to move towards the statewide
22	receivership of pensions so when I asked
23	about it he said all of them were depleted
24	he found at a state level, not a global
25	level, so we need to work with our state

47 1 reps and Senator Blake and try to move towards a statewide solution that we had 2 mentioned and get working on that as soon as 3 4 we can. 5 As far as the PUC hearing is concerned, I listened to the PUC hearing 6 this morning via live stream from 7 8 Harrisburg. By a four to one vote, we all 9 know the PUC approved the transaction between PUC and the SSA. 10 There was a 11 general consensus by the commission that 12 this is a very good deal for the Scranton 13 taxpayers and SSA ratepayers. In fact, even 14 the dissenting vote and opinion that was also colored by that individual to be 15 16 shared. 17 It has been said, but basically most 18 of the grounds as Councilman Rogan mentioned 19 that the larger ratepayer, basically WC, 20 would be running under suspect at some point 21 this transaction and others like it, but I 22 would say that Act 11 that was passed 23 previously recently by the state legislature 24 allows for making that argument a moot 25 In fact, the SSA estimates at this point.

48 1 point will only encounter for five or six of 2 the total ratepayers involved in the KWC. 3 But it now appears that the deal hopefully will continue to move forward so now all of 4 5 our attention should be turned on the 6 following: 7 Number one, storm water. We should 8 have at the very least on day one after the 9 closing of this transaction a framework in 10 place for the management of a storm water 11 system. Two. 12 The proceeds from the sale 13 must, and I repeat must, be used prudently. 14 Every dollar must be accounted for and spent in a positive way that not only addresses 15 16 Scranton's long-term debt, some long ignored 17 capital improvements in it's ongoing 18 structural deficit. It should also be used 19 in a way that would promote economic growth 20 in that we'll restructure a way to do 21 business in the long term. 22 As far as infusion into the 23 pensions, this should be off the table until 24 all current pension reforms garnered for the community contracts, any awards that are in 25

place are shown to be working, as well as additional reforms that need to be discussed further and moved to its consensus on the proceeds.

And three, as I've discussed last week and will continue to discuss in the upcoming weeks, we must make significant changes in the way government does business and we must move towards an entrepreneurial government for the long-term viability of the City's of Scranton and it cannot be stressed enough that the status quo on how we operate will continue to hold us back and ultimately bring us back to insolvency, so with this decision we have a once in a lifetime opportunity to get this right so we have to be conscious of that once in a lifetime we have to get this right. That's all I have for tonight.

20MR. WECHSLER: Thank you. Mr.21Gaughan?

MR. GAUGHAN: Yes, thank you, Just a few comments. First, Mrs. Reed, if we could get an update by next week of what's going on with the Young property over on Wyoming

	50
1	Avenue. We haven't heard about that in
2	awhile so I'd like an update on that if
3	that's possible.
4	The second thing, we did receive a
5	letter, as Mr. Rogan mentioned, from PennDOT
6	addressing a number of issues across the
7	city, one of which was safety concerns that
8	I have upon Birney Avenue so there are a
9	number of different things, and I don't have
10	the letter right in front of me, that the
11	city can do up there such as installing
12	crosswalks and other safety measures so I
13	will plan on having a follow-up conversation
14	with our DPW director and the administration
15	on that.
16	As it relates to the University of
17	Scranton's announcement of the South Side
18	Athletic Campus, I did receive a few calls
19	about a plaque that used to be down at the
20	South Side Complex honoring former mayor
21	Bill Schmidt, so I did reach out to a
22	representative from the University and she
23	did tell me that the University has also
24	been contacted by the Schmidt family and has
25	talked with them about this matter,

including the possibility of a new plaque to commemorate that history honoring former mayor Bill Schmidt and all the work that he put in down at the South Side Complex, so they are aware of the issue and they will be contacting the family as the project move forwards.

24

25

The Second thing, I have submitted two Right-to-Know requests regarding information that I have requested from the administration. I have waited long enough so now I will start and I have started submitting Right-to-Know requests so hopefully now legally they will have to provide this information.

One of the speakers brought up the Sewer Authority's permit application, Council did receive a copy of it and it is available on the Clerk's desk. I would also ask to find out from the administration if it would be possible to put this on the City's website or ask that it be put on the Sewer Authority's website so that people can view it electronically.

As it relates to the Scranton Sewer

Authority sale, I have many concerns, which I have stated over the past few months. Right of water companies, like American Water, are generally motivated by their own profits and not by the public good and they make decisions about their services accordingly. Unlike publically operated systems, these companies aren't usually accountable to residents leaving people with little recourse to fix their situation, so that's one of my major concerns any time you privatize any public asset.

22

23

24

25

Now, how does council fit into this? I believe and I've asked our solicitor, Mr. Minora, what role we would play in this deal and I believe that the only vote we will have on this is to dissolve the Scranton Sewer Authority, so we do not have a say in whether or not the asset gets sold.

A couple of things that I'm concerned about, and it was already mentioned, the City's storm water management. This should have been part of the equation from the very beginning. You know, there was a report issued back in 2013

that detailed all of the issues that we have with our storm water system in the City of Scranton and obviously none of the things that were detailed in that report have been followed through on, one of which was that this was a freight train that was coming at us and we could have done a number of different things to curb some of those issues and we have done that and so now we are left selling off one of our major assets without any sort of idea of what we are going to do on day one to deal with the storm water. So we don't have a plan as of yet to deal with the impending transfer of responsibilities from the Sewer Authority to the City.

21

22

23

24

25

We also don't know costs. How much is a new authority going to cost? How much is the equipment going to cost? The manpower? The upgrades? As I mentioned earlier, the analysis will take a few months. This should have been done as part of the equation of the sale.

> Another concern is that we will not have a public partner in the Scranton Sewer

Authority any longer. I'm also curious on how the proceeds will be used and if this will truly make a difference in the pensions or ten years from now we will be right back where we started. The system is broke, as has been said up here many times. No matter how much money we throw at it, it's broken and it needs to be reformed and fixed. We have been down this road before selling off assets and it did not work out well at all.

19

20

21

22

23

24

25

The thought of \$96 million seems to make people very short-sided. You know, don't forget we are losing a public asset that was in great financial condition, and I'm afraid that the ratepayers eventually will get taken for another ride down the toilet once again. My fear is that after ten years or so this is going to eventually be a backdoor tax on the ratepayers of the City of Scranton, so no matter what way we look at it the ratepayers are going to get the short end of the stick when they look at city and what we have to do in regards to the storm water management and we are throwing good money after bad, we'll be

robbing Peter to pay Paul, so I do have concerns about this and I agree with Mrs. Schumacher when she said the PUC did kick the can down the road, so there still is questions about this deal that are unanswered. And that's all I have this week. Thank you.

21

22

23

24

25

MR. WECHSLER: Thank you, Mr. Gaughan. I guess I'll start with the Sewer Authority since that's where we are spending a lot of time. All along as Council as be hearing and the fact that we are the public forum for comments about everything and we have been constantly asked a lot of questions about the sale of the Sewer Authority, and as Mr. Gaughan has explained, City Council has had nothing to do with the sale of the Sewer Authority. Our goal and part of this deal is going to be just the dissolution of the Authority itself.

Once that happens and the money comes to the city, that's when the game changes. As Mr. Perry stated and all my colleagues, that's where City Council has five votes and we will decide how that money

1 2 3 4 5 6	56 is spent. The administration is working on it, we are working on it, and I do believe that it will be a consensus between all the parties involved and where the money should best be spent. This is where City Council
2 3 4 5 6	it, we are working on it, and I do believe that it will be a consensus between all the parties involved and where the money should
3 4 5 6	that it will be a consensus between all the parties involved and where the money should
4 5 6	parties involved and where the money should
5 6	
6	best be spent. This is where City Council
	has the largest responsibility to protect
7	our city and make the most out of this sale.
8	As was spoke about in caucus, this
9	is going to require some creative financial
10	thinking. It's not a huge windfall or
11	piggybank or lottery win that should just be
12	spent as we see needed, but there will be a
13	lot of issues so we do have to get
14	priorities.
15	We do need to put money into the
16	pension to relieve some of the stress that's
17	on that, but I do not believe that we need
18	to put the lion's share of the proceeds from
19	the sale of the Sewer Authority into the
20	pension.
21	In terms of when that comes in, I
22	believe an annual plan to spend the money to
23	meet our obligations that comes from the
24	proceeds is a better plan than just starting
25	to count money at first.

In terms of the storm water management, the City is an old city and it is going to require a lot of improvement, that's why as we look at this staging as we move along, there is going to have to be some kind of creation of a storm water management and the storm water management authority will have to work within the structure of our city, that means our DPW workers are going to have to have some involvement in that creation of that authority. Once the authority is formed, it will be just like the Sewer Authority once we are able to go out and get state grants and funding for some of our different projects, so as was stated, we are going to have to be ready for that, getting that together as soon as we can in 2017. So overall, I don't think that we can debate the sale of the Sewer Authority, the infrastructure costs and responsibility are too much to bear for the Sewer Authority and the reality is is that improvements have to be made to the storm water management system and the sewer system, but the other reality

As we heard tonight, people are suggesting bankruptcy and bankruptcy is not Bankruptcy as part of our an option. recovery plan there is bankruptcy in that plan if necessary. As we go through this plan review every year and determine if they should maybe gone through a proceeding of getting out of distressed status, I think this year when that comes along we will be deemed that we are not ready for receivership, definitely not ready for bankruptcy. As we move into 2017, I think actually we may be able to see that we may have to be distressed a little longer, and even though it's just a name and it's been around so long and nobody really cares about it, it may very important for the city when that gets removed, so it is a good day for the city, but it puts a huge onus on myself and my colleagues to do the right thing with this money when it comes in.

I did touch a little bit on

59
bankruptcy and the petition that was
received tonight and we did accept it, it is
when Mr. Minora comes back next week he
can review it and see what we should do with
that.
In talking about the University of
Scranton and the complex, as Mr. Perry said,
played a lot of ball or I should say sat on
the benches a lot, and really the fact that
the Heritage Trail goes through there now
and the University will have this athletic
facility as part of that is going to make
Scranton more of a walking/biking city. To
accomplish that, to be honest with you since
right now the trail is there, really all
throughout the city the walking trails are
used so I think in the end it is going to be
a huge improvement to the city and I'm happy
that that's going through.
Mr. Gaughan and I have been
communicating with the residents of Phelps
Street. They had some issue with some trees
and a streetlight. Mr. Pocius was out there
and made an evaluation and he does believe
that they may be eligible for a streetlight

	60
1	and also a recommendation to sent his
2	recommendation to the DPW and Mr. Gallagher
3	to do some tree trimming down there, also,
4	so we made a little bit of progress on that
5	this week.
6	And finally, pave cuts, this week I
7	spent a lot of time speaking with John
8	Hazzouri, the pave cut inspector, and there
9	is some major paving going down up by the
10	Cathedral Cemetery. Replacement work,
11	permit restoration work is going to be done
12	on Barton Street so I did talk to Mr.
13	Hazzouri on I think Monday. He has been up
14	there a few times verifying that work. I
15	also am going to reach out to the water
16	company just to make sure that they feel
17	comfortable with their contractor and the
18	work they are doing up there and maybe get
19	some of their inspection results to give me
20	the comfort that the water company is doing
21	it correct. And that is all I have for
22	tonight. Thank you.
23	MR. ROGAN: I just have one thing to
24	mention, you jogged my memory when you
25	mentioned about bankruptcy. I agree

completely with what you said, for anyone that thinks that that's the solution look at what happened in Harrisburg. It's easy to say, well, we are having financial problems, just declare bankruptcy and it will all go way, but that's not how it works. What actually happens in that situation is that City Council, who were elected by the taxpayers, the mayor, who was elected by the taxpayers, they aren't in charge anymore and a receiver is appointed, and that receiver is going to handle the issue to the taxpayer and residents in the city, and despite taxes going up I can assure you all of us in government are doing everything we can to keep those increases to a minimum. Α receiver that comes in is just going to sign the check and say, "This is what we need, pay up." And that's why this sewer deal is so important that without it it may be, we may have headed down that path, everyone saw the pension reports, you know, as Mr. Wechsler said two years they may have ran dry and if the pensions ran dry that is a different conversation. but we are not

1

14

15

16

17

18

19

20

21

22

23

24

25

looking for that to happen, we are doing everything we can up here to make sure that never happens and bankruptcy, at least for myself, is by far the last option and only when the well truly runs dry, there is not a cent left in the city coffers and pension funds have run dry that is when that would even be considered. We are doing everything we can to try and get the city back on track and we've made a tremendous amount of progress over the last few years, despite what you may read in the newspapers, from the financial community the city has been getting their creditworthiness back. The city coffers have been, you know, we're not paying city employees minimum wage anymore, which did happen, so there has been a lot of improvement, there is a ton of work to go, but for anyone to just decide that bankruptcy is an easy solution hasn't looked at the facts of what municipal bankruptcy actually contains.

25

MR. EVANS: If I may, since we are on the topic, if we had a receiver and went into bankruptcy or went into receivership,

the first thing the receiver is going to do is say, "Sell your assets." And at that time we would sell our assets at a fire sale. So if you think you are going to get \$95 million in that Sewer Authority if we went into receivership you're wrong. We'd probably get 25 cents on the dollar at the fire sale, so we could turn that \$95 into \$25 in a hurry, which would also include 30, 40, 50 percent tax hikes so that's not an option, as I've said extensively, it's not. We have to do everything we can to avoid that. I think we are. Again, us working in-house and deciding when the deal is finally closed how that money is spent and we've got to spend it right. MS. 	65
1	MR. ROGAN: So moved.
2	MR. EVANS: Second.
3	MR. WECHSLER: On the question?
4	MR. PERRY: Yes, just on the
5	question, I wasn't familiar with Oakwood
6	development and I saw it on the agenda, I
7	took a drive up this afternoon and yeah,
8	that's in need of attention for sure so I'm
9	going to be in favor of the application
10	process.
11	MR. WECHSLER: Yes, that's all I'd
12	like to say. This is a good project and a
13	good intent for these funds. This
14	neighborhood has been neglected, as Mr.
15	Rogan said, forever, and I wholeheartedly
16	support this and I want to make sure that
17	the grant is completed.
18	MR. EVANS: Yeah, part of the
19	problem is it's an ongoing problem because
20	they are obviously not a low to mod
21	neighborhood there, it's a high income,
22	middle income neighborhood so it's always
23	the last one to get paved very similar to
24	the McCarry's in this town, so when we have
25	an opportunity to do a grant like this it's

66 1 truly worthwhile. 2 MR. ROGAN: The most frustrating 3 thing for those residents is they pay some 4 of the highest taxes in the city and their 5 roads aren't getting paved like other areas 6 are paved. 7 MR. EVANS: Yeah. 8 MR. ROGAN: So it's a bit 9 frustrating. 10 MR. WECHSLER: All those in favor of 11 introduction signify by saying aye. 12 MR. NEGAN: Aye. 13 MR. ROGAN: Aye. 14 MR. EVANS: Aye. 15 MR. GAUGHAN: Aye. 16 MS. REED: 5-D. FOR INTRODUCTION - A 17 ayes have it and so moved. 18 MS. REED: 5-D.
