1	MR. WECHSLER: Call this public
2	hearing to order. Roll call, please.
3	MS. CARRERA: Mr. Perry. Mr. Rogan.
4	MR. ROGAN: Here.
5	MS. CARRERA: Mr. Evans. Mr.
6	Gaughan.
7	MR. GAUGHAN: Here.
8	MS. CARRERA: Mr. Wechsler.
9	MR. WECHSLER: Here.
10	MS. REED: The purpose of said
11	public hearing is to hear testimony and
12	discuss the following: AUTHORIZING THE
13	MAYOR AND OTHER APPROPRIATE OFFICIALS OF THE
14	CITY OF SCRANTON TO TAKE ALL NECESSARY
15	ACTIONS TO IMPLEMENT THE CONSOLIDATED
16	SUBMISSION FOR COMMUNITY PLANNING AND
17	DEVELOPMENT PROGRAMS TO BE FUNDED UNDER THE
18	COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG)
19	PROGRAM, HOME INVESTMENT PARTNERSHIP (HOME)
20	PROGRAM AND EMERGENCY SOLUTIONS GRANTS (ESG)
21	PROGRAM FOR THE PERIOD BEGINNING JANUARY 1,
22	2017.
23	MR. WECHSLER: Joining us this
24	evening are members of OECD to speak on the
25	2017 Action Plan. I want to thank them all

	4
1	for coming, especially thanking Ms. Aebli
2	for attending.
3	Ms. Aebli, would you like to make
4	any comments at this time?
5	(Mr. Perry joins the meeting.)
6	MS. AEBLI: Thank you. On September
7	16, I put a public notice in the paper
8	listing August of the activities and the
9	applications. Under Community Development
10	Block Grant we received over \$5.4 and we are
11	estimating that we will probably get maybe
12	\$2.5 million.
13	MR. HICKEY: 5.4 application.
14	MS. ABELI: 5.4 application, and we
15	had probably get \$2.5 million in allocation.
16	Under the HOME program, we received
17	\$810,000 worth of applications and we'll
18	probably get around \$400,000 in allocation.
19	And the ESG is right on target
20	around \$250,000. We.
21	We graded them on the need of the
22	application. The applicant had to
23	demonstrate the significance to help low to
24	moderate income families, the feasibility
25	and the readiness of the project, is it

<ul> <li>all of the activities in front of you, if</li> <li>you have any question I'll be more than</li> <li>happy to answer them.</li> <li>MR. WECHSLER: Does anyone have any</li> <li>questions from Ms. Aebli?</li> <li>MR. GAUGHAN: Yeah, a few, thank</li> <li>you. Can you just take us through how the</li> <li>scoring system works? In other words, when</li> <li>you get application in your office can you</li> <li>take me through the process of how it gets</li> <li>scored?</li> <li>MS. AEBLI: Yes. Like I just said,</li> <li>there is four things we look at. The need,</li> <li>everyone on the staff takes maybe two or</li> <li>three applications and two people on the</li> <li>staff look at each application and they</li> <li>score them together and, again, it's the</li> </ul>	-	
2applicant, what kind of experience the3applicant organization has, and the4financing. 20 there is four things we look at. The need, 21 everyone on the staff takes maybe two or 22 three applications and two people on the 23 staff look at each application and they 24 score them together and, again, it's the	18	scored?
21 everyone on the staff takes maybe two or 22 three applications and two people on the 23 staff look at each application and they 24 score them together and, again, it's the	19	MS. AEBLI: Yes. Like I just said,
<ul> <li>three applications and two people on the</li> <li>staff look at each application and they</li> <li>score them together and, again, it's the</li> </ul>	20	there is four things we look at. The need,
<ul> <li>23 staff look at each application and they</li> <li>24 score them together and, again, it's the</li> </ul>	21	everyone on the staff takes maybe two or
24 score them together and, again, it's the	22	three applications and two people on the
	23	staff look at each application and they
25 need, the feasibility, the capacity, and th	24	score them together and, again, it's the
	25	need, the feasibility, the capacity, and the

	6
1	financing and that's how we look at what we
2	fund.
3	MR. HICKEY: Each one is weighted.
4	MS. AEBLI: Oh, yeah. The need is
5	like is 30 points, feasibility is 25 points,
6	capacity is 25 points and the financing is
7	20 points.
8	MR. GAUGHAN: Okay. One of the
9	things that stood out to me when I looked at
10	all of these projects, and maybe you can
11	explain this a little bit, one of the
12	projects that was for the application that
13	was submitted for the demolition of
14	hazardous structures through the Licensing,
15	Inspections and Permits Department, and I
16	noticed that that particular allocation
17	received a 51 percent score yet they were
18	funded at \$200,000. Can you us explain how
19	that project received such a low score when
20	the department is located in city hall?
21	(Mr. Evans joins the meeting.)
22	MS. AEBLI: I'd have to look at the
23	application. I can let you know.
24	MR. GAUGHAN: I think they were
25	looking at the one point it was over a

	7
1	million dollars, wasn't it?
2	MR. HICKEY: \$800,000.
3	MR. GAUGHAN: \$800,000.
4	MS. AEBLI: \$800,000? Yeah, so we
5	gave them 200. I will get back to you on
6	that.
7	MR. GAUGHAN: And the reason that I
8	ask that is because when I look at the way
9	these things are scored I'm just confused
10	because that project is getting \$200,000 yet
11	they only received a score of 51 percent and
12	a project like the McLane Park renovation
13	project received 100 percent score and they
14	are only getting funded for 90,0000 so it
15	doesn't seem like the scoring system matches
16	the amount of funding.
17	MS. AEBLI: I can answer that about
18	McLane Park. Their application had too
19	many they are all over the place and we
20	told them to concentrate on one area that
21	you want to fixed, not five or six items.
22	That's why they got 90,000. Let them
23	concentrate on one item they want in the
24	park done. And I believe, if I'm not
25	mistaken, there were things that were

1       maintenance and we cannot fund maintenance         2       MR. GAUGHAN: What specifically, d         3       you remember?         4       MS. ABELI: No, I can look.         5       MR. GAUGHAN: Okay, if you could g         6       back to me with that. Can you explain what         7       the priorities of your office are in order         8       of importance and how you fund the various         9       projects? In other words, I see that you         10       are putting \$200,000 in economic developme         11       so what are the priorities as it relates t         12       economic development?         13       MS. AEBLI: Well, lately we have         14       been receiving a lot of applications for         15       economic development and we felt like I         16       believe what was it, 200 last year?         17       MR. PREAMB0: Correct.         18       MS. AEBLI: We thought we should         19       fund at least another \$200,000 because we         20       are receiving more economic development         21       application that we have.         22       MR. GAUGHAN: And I don't know if	
2MR. GAUGHAN: What specifically, d3you remember?4MS. ABELI: No, I can look.5MR. GAUGHAN: Okay, if you could g6back to me with that. Can you explain wha7the priorities of your office are in order8of importance and how you fund the various9projects? In other words, I see that you10are putting \$200,000 in economic developmen11so what are the priorities as it relates t12economic development?13MS. AEBLI: Well, lately we have14been receiving a lot of applications for15economic development and we felt like I16believe what was it, 200 last year?17MS. AEBLI: We thought we should19fund at least another \$200,000 because we20are receiving more economic development21application that we have.	8

20are receiving more economic development21application that we have.	
21 application that we have.	
22 MR. GAUGHAN: And I don't know if	
23 you will have in information on you tonigh	ī,
24 but if available can you provide me any	
25 unused remaining balance of HUD funds from	

	S
1	2015 and '16 for the following projects as
2	of today's date: Demolition of hazardous
3	structures, paving and curb cuts in low mod
4	areas, economic development projects, and
5	housing rehabilitation program. I just
6	would like to know if there is any unused
7	remaining balance from those specific
8	projects.
9	MR. HICKEY: Mr. Gaughan, could you
10	just follow up with something just to make
11	sure we've got everything?
12	MS. GAUGHAN: Sure. I'll have
13	Mrs. Reed send a letter down to your office.
14	MR. HICKEY: It doesn't have to be a
15	letter, just a list of the projects you are
16	looking for.
17	MR. GAUGHAN: Okay. And that's all
18	I have. Thank you.
19	MR. WECHSLER: Anyone else?
20	MR. PERRY: Yeah, I just have one
21	question, there is about 22 very worthy
22	causes here and, you know, much needed
23	funding, I'm sure, how many applications do
24	you have that you had to deny altogether
25	that didn't get any funding?

	10
1	MS. AEBLI: They're all on the list.
2	Every application we received they are all
3	listed.
4	MR. PERRY: The total was about 22,
5	25 total applicants for this year?
6	MS. AEBLI: Correct. Everyone on
7	your list is an application we received.
8	MR. PERRY: Okay.
9	MR. GAUGHAN: I have one additional
10	question, and maybe you already answered it
11	but I'm still trying figure it out, how did
12	you determine as the department director
13	exactly how much amount of funding each
14	specific projects gets? In other words, I
15	see, for instance, the sidewalk and street
16	scape improvements got 70,336. How do you
17	come to that exact figure?
18	MS. AEBLI: Well, it takes a lot of
19	wiggling the numbers and I take past what
20	we have given some recipients in the past
21	what if they have any funding left from
22	the year before, if he are not using the
23	funding fast enough they may not get that
24	amount this year, so I take everything into
25	consideration. You want to fund everybody,

	11
1	but there was a couple of projects on here
2	that were asking for large amounts, but they
3	would not be able to complete the project if
4	we just gave them say \$50,000.
5	MR. GAUGHAN: Okay, and who is
6	involved in this process, just you or your
7	whole department?
8	MS. AEBLI: No, the whole staff.
9	MR. GAUGHAN: Thank you.
10	MS. AEBLI: You're welcome.
11	MR. EVANS: A couple of questions,
12	and you may have answered this already, but
13	on the paving and the curb cuts in low mod
14	areas was applied for and the applicant
15	actually was the City of Scranton or OECD is
16	the applicant for the curb cuts; right?
17	MS. AEBLI: Correct.
18	MR. EVANS: So \$400,000 is going to
19	be allocated, how did that come about? Is
20	there a problem with identifying enough
21	streets or is just a budgetary thing where
22	we just
23	MS. AEBLI: Just a budgetary.
24	Although we changed the census map two years
25	ago, we eliminated some of the streets

	12
1	were eliminated but we picked up a lot of
2	new streets and we have been putting a lot
3	of money in. In the spring we just did a
4	substantial amendment for 400?
5	MR. PREAMBO: Yes.
6	MS. AEBLI: 400,000. So we figured
7	400,000 is a safe
8	MR. EVANS: It's not because we are
9	running out of streets to pave, we certainly
10	don't have that problem.
11	MS. AEBLI: No.
12	MR. EVANS: On the economic
13	development question, you said last year it
14	was a pretty successful year we had 400,000
15	in the budget and have we spent that money
16	or have we had a lot of applications, are we
17	able to spend that money?
18	MS. AEBLI: I have three
19	applications pending.
20	MR. EVANS: Okay. Good.
21	MS. AEBLI: That have not come
22	before city council yet.
23	MR. EVANS: That would pretty much
24	finish the \$200,000
25	MS. AEBLI: It will be over 200,000.

1	Π
	13
1	MR. EVANS: Okay, so that will roll
2	over into this funding cycle then.
3	MS. AEBLI: Yes.
4	MR. EVANS: And the First Time
5	Homebuyers Program, on the issue, I know we
6	put the money back in the last year?
7	MS. AEBLI: We did probably six or
8	seven this year.
9	MR. EVANS: That's an improvement.
10	It looks like an uptick, right, from the
11	previous year?
12	MS. AEBLI: Yeah.
13	MR. EVANS: Okay. All right, that's
14	all I have.
15	MR. ROGAN: Just a couple of
16	comments, I don't have any questions because
17	over the last month or is so I have been in
18	contact times about this proposal and also
19	on the economic development front since it's
20	been brought up a couple of times myself and
21	Mr. Preambo have been in constant
22	discussion, there are some very nice
23	economic development projects that should be
24	coming in front of council very shortly, a
25	couple of them are coming sooner than others

and some others need HUD approvals, but there is a lot in the works on that front, and just in general regarding the entire block grant program we wish we were getting the \$5 million from the federal government to fund everyone in this projects, that would be the full amount. Obviously, we would love to get \$1.6 million in paving instead of \$400,000 in paving, and the same for everyone of these projects in all sections of the city, so I will make a plea to the residents of in Scranton to call their Congressmen and their Senators and urge them to support increased funding for the CDBG program.

Over the last 20 years, this program has been cut many, many times. I'm sure you can attest to the amount of money we were receiving maybe a decade ago to today but, unfortunately, Washington makes cuts and they are effecting us here in the City of Scranton. So that's -- the CDBG program is vital to the city and I hope our representatives will support it. MS. AEBLI: One thing I'd like to

-	
	15
1	add was I was down HUD yesterday to a
2	meeting and seven new entitlement
3	communities came on board to get CDBG so
4	when that happens everybody across the
5	country may get cut.
6	MR. ROGAN: The pie will be split
7	even smaller.
8	MS. ABELI: Yeah.
9	MR. WECHSLER: Just to follow up on
10	what Mr. Rogan said, it's 2016 already and
11	the next opportunity for us to gather the
12	data for our census map will be coming up I
13	guess in about four years, so is there any
14	outreach or plans, and I know it's kind of
15	in the future is there any outreach plans
16	to try to develop an action plan to get
17	better responses to the census and better
18	information tracking to our eligible
19	neighborhoods? Any type of plans or any
20	type even on a national level, anything
21	to encourage the development of the census
22	for funding sources?
23	MS. AEBLI: I received something in
24	the mail not too long ago that the US Census
25	is beginning to look for office in the

	16
1	United States to open up their offices to do
2	the legwork, that's all I know right now.
3	MR. WECHSLER: Because I think we
4	could miss out and a lot of funding because
5	we don't have accurate data in our
6	neighborhoods. Not, through any fault of
7	anyone, it's just the population is changing
8	and aren't really receptive to answering
9	government surveys so as we move forward and
10	closer I think we all need to plan to make
11	the census more comprehensive and effective.
12	We do have a sign-in list here of
13	people who wish to speak tonight. The first
14	is Kathleen Quinn.
15	MR. QUINN: Hi. My name is Kathy
16	Quinn, and I am copresident of the North
17	Scranton Neighborhood Association Watch and
18	the reason I'm here is because my
19	organization submitted an application for a
20	grant through OECD for renovations of McLane
21	Park which is located on Rockwell Avenue in
22	North Scranton.
23	I know it might seem like we are all
24	over the place, but we did look at the
25	playground as a whole and we actually have

	17
1	not had any money in this playground since
2	1992 so, of course, there are many things
3	that need to be done and I'll just touch on
4	them.
5	The first one was replacement of the
6	equipment the climber. The climber is
7	literally it's falling apart, the wood is
8	decayed, some pieces are missing, some had
9	to be taken off for safety purposes and
10	others have just fallen off, so that is a
11	big part of the project.
12	The other is the swing sets. The
13	swing sets, the toddler swings are made of
14	that plastic material and they are cracking,
15	they are literally cracking, like, they can
16	cut children's fingers.
17	And then we have the basketball
18	Court which needs to be resurfaced. It is
19	such a slant that the guys have to dribble
20	up a hill and then when it rains they are
21	playing in half of a court of water.
22	And, let's see, we have the softball
23	field. Well, the fencing around the
24	softball field is coming apart. The bars at
25	the top of the mesh they are not connected

to each other, they are -- one is this way, one is that way. There is holes in the netting. It's literally falling apart and I don't feel that that is safe, and we have neighbors that live on Gilbert Street, when the softballs, when they hit a home run the softballs literally they hit their houses and their cars. Actually one of my neighbors had a softball his window on Sunday. I have complaints as to what happens when a child gets hit with softball and they are seriously injured, who takes liability? Who is responsible? So we need a netting. We have a proposal for a 20-fooot netting on that side to stop that. And we also sidewalks. The

sidewalks going through the park they are separating, they are uneven, they are not safe to walk on let alone if you had to maneuver a wheelchair through that park so, I mean, I feel like all of these factors are very important and I know it's one park, and keep in mind it's almost 25 years since any money has been put in this park and it's used by thousands of people. The families

1 2 3 4	19 at Bangor Heights use it, there are adults that use it, the kids play basketball there from morning until night, never any problems, and the softball field is used all of the time. So it's I really feel that it's a

	So it's I really feel that it's a
5	
6	worthy cause that is in need of a lat of
7	worthy cause that is in need of a lot of
8	TLC, which \$90,000, although it is a
9	substantial amount, and we are very
10	appreciative, I would ask respectfully to
11	consider giving us a little more funding for
12	that project. Thank you.
13	MR. GAUGHAN: Thank you very much.
14	Appreciate it.
15	MR. WECHSLER: John O'Hearn.
16	MR. O'HEARN: My name is John
17	O'Hearn and I'm the other copresident of the
18	North Scranton Neighborhood Association. I
19	appreciate you guys coming here early
20	tonight to listen to us.
21	Since I have been involved with our
22	neighborhood association, one of the things
23	that I have learned from Chief Graziano is
24	he always stressed neighborhoods that are
25	active is a big deterrent to crime, and we

really have been putting a lot of effort into that. Throughout the year we have parties for the kids at Easter, during the summer with North Scranton Rotary. We have a Halloween party in the fall and Christmas time we have a big party down on Providence square with the businesses down there, and being active like that what he stresses is, you know, it's a deterrent where criminals or drug dealers come in and they see things like this and they would rather go the other way.

20

21

22

23

24

25

And my own personal opinions like our parks, where Gerrity park is now is where I went to grammar school, and it just used to be an empty lot, it was all overgrown and now I don't know if you guys have all have seen it, I'm some of you, but it's really a cut little park and it's such a positive thing and that park has been getting most of the attention in North Scranton since I have been involved.

And Weston Park is also a beautiful park and that's gotten some money for the baseball field and we have been doing things

to fix up the building itself, and just seems like McLane park has gotten kind of on back burner, like Kathy said, you know, it's been a number of years and I'm not going to echo everything she said, you know, I think she made it clear, but I know not to be too dramatic the chain link fence we had a clean up over there earlier this summer, we had a couple of guys go around with weed whackers and at the time of the bar should be that chain link it's dangerous, and when I was a kid that Benjamin Rush from Gerrity park is now a friend of the mine, once went to climb over, it was a higher fence, to get a ball and he fell and it went right through his arm and, you know, it was really a nasty thing and if affected him for his whole life and he didn't have use of that. So, I mean, things could happen with kids, you know? So I just wanted to bring that up.

1

22

23

24

25

And anything you guys could do for us because I think, you know, talking about criminals nothing looks worse than a park that is run down with graffiti, I'm not saying that McLane is like that but, you

know, you are either going forward or backward and it does get a lot of use, it's not just sitting there, like Kathy said, a lot of ball, baseball, basketball so I really think it's a positive thing that would not only be great for North Scranton, but I think for the city overall.

And I have a letter here that a resident asked me to read who couldn't be here tonight. He lives up on Rockwell Avenue, so if you guys would permit me. This is from Eric Myers, he lives at 2145 Rockwell Avenue and he says, "Good evening. I apologize for not attending and speaking on my own behalf. I am the scout master of Boy Scout Troop 57 a Mary Mother of God Parish. We meet on the same night and this particular meeting is it exceedingly important or I would have rescheduled. Please accept in letter in lieu of my presence.

This letter is intended to show my complete support for improvements to the park. The children's play area is over 25 years old and is showing it's age. Termites

	23
1	have taken their toll as have vandals. The
2	mulch is long gone and the benches were
3	destroyed. Sections of the structure have
4	rotted away and had to be removed earlier
5	this year.
6	While I fear this last bit posts no
7	immediate threat to the safety of the
8	children, attention is definitely needed.
9	The last improvements to this park were made
10	in 2009 by my son JP Meyers. He did his
11	Eagle Scout project making those
12	improvements. He spread mulch, repaired
13	things, removed graffiti, planted a tree,
14	painted and repaired benches. During that
15	project he was surprised to see how many
16	neighbors came out to help him. He planned
17	to his fellow scouts there but the neighbors
18	didn't know of the plan. Once they saw the
19	troops there they volunteered and were a
20	great help. I tell you these story to show
21	an example of how strong the neighborhood
22	is, a neighborhood where people have lived
23	long term. We have raised our children
24	together, we talk to one another, this is a
25	place where you hear laughing from adults

	24
1	and joke with each other while walking by,
2	an old neighborhood to be sure but as each
3	house gets updated you can see a
4	neighborhood that will last well into the
5	future. You can feel it.
6	My wife Cindy and I have lived here
7	22 years. We watched dozens of kids grow up
8	playing at the park. The stories our kids
9	told make us laugh, they make memories here.
10	Are kids are now grown and have moved.
11	There is a new generation of kids now.
12	These kids should also benefit from having a
13	safe playground to grow up with. Sincerely,
14	Eric Meyers."
15	So thank you guys for hearing this
16	and I really appreciate anything you can do
17	to support us.
18	MR. GAUGHAN: Thank you.
19	MR. WECHSLER: Thank you very much.
20	John O'Keita.
21	MR. O'KEITA: John O'Keita, North
22	Scranton resident. Rockwell Park has been
23	in my front yard for 25 years, I seen the
24	good and the bad. It started off s a mule
25	farm for the mines and used to keep the

In the 70's and 80's it still mules there. looked like a mule farm and I'm told they did get a new park. It's a pleasant day, all of the structures are still there. Thev used pressure treated lumber, 25 years of wood and dirt never going to work. Today's parks are made of better material, I was the second one on the volunteer list at the Bill Gerrity Park, I helped with the park with a bunch of members from the community, we had a great time. The park is used every day, it's beautiful there. Maybe we can get some of the equipment over our place. Definitely needs to be resurfaced and, you know, you can't really walk around without tripping over roots and stuff. Fencing for the ball players, I seen

20

21

22

23

24

25

a couple of guys this year running to the fences and they were taken away in ambulances. I mean, it's that bad. You spear yourself. Neighbors get hit by balls. Wouldn't be so bad to have a little bit higher fence in a field. These people are in constant fear of the property damage. A friend of mine works at a body shop, he

_	
	26
1	knows what it costs to have a car fixed, a
2	windshield. I work on houses, repairs are
3	not cheap.
4	Fencing, the park, I mean, the kids
5	use the park every day. There hasn't been
6	any real vandals in there since I have been
7	there. I really haven't seen nothing done
8	there. There is nobody here anymore. There
9	is some parents with their children, you
10	don't see any kids plying there. It's
11	always baseball guys, they are there
12	constantly which is great, they keep the
13	park alive. They are there every day, every
14	night and there's a ball player here now, I
15	see him down here every day, you know, and
16	the park itself is in good shape we just
17	need a little more attention, you know. I
18	mean, it's community park, everybody is
19	there's a bunch of people here, I have known
20	them since I was 12 and we just love the
21	place and I'd like to see it done over and
22	that's it. Thank you.
23	MR. GAUGHAN: Thank you very much.
24	MR. WECHSLER: Fran Watnoski.
25	MS. WATNOSKI: It's Watnoski.

-	
	27
1	MR. WECHSLER: If you can get that
2	out of this signature I'll agree with you.
3	MS. WATNOSKI: Frank Watnoski,
4	resident of North Scranton. I'm the
5	president and founder of a men's softball
6	league that place at Rockwell field on
7	Sundays and I was also a deputy commissioner
8	with the ASA for 25 years. I have been
9	involved in softball leagues, mostly men,
10	for over 30 years and figuring it out I have
11	probably brought in the City of Scranton at
12	least maybe more \$90,000 on my own because I
13	have used South Side, Weston field, and of
14	course Rockwell.
15	Now, the only league I have right
16	now is I'm using Rockwell field. I feel
17	very badly because I have spoken to people
18	who live across the street from Rockwell
19	field. I have tried, I'm up there now 17
20	years running a softball league. I go to
21	every single game. I'm there from morning,
22	the first game is at 9:30, I'm there for the
23	last game at 5 p.m. I don't have any games
24	any later than that. I don't want to
25	disturb the neighbors. I try to be good

with them.

25

I was explaining to one of the neighbors their home was hit on Sunday, which I didn't even realize this. I feel very body about it, but the thing is, like I said to them, it's not the ball it's the bats. You can't ask the ballplayers of today to use wooden bats. They use aluminum bats, which I'm saying aluminum, but they have got many types of alloys in them that makes the ball fly. Usually on a hot day the ball would die, it doesn't anymore. 0n a cold day it flies. As far as people getting hurt up there, yes, there have been people hurt up there and it's not necessarily because of the fencing, but it's the field itself. There has been this year dirt put on the field but it wasn't graded, it just put on the first time in 17 years. Also, the fencing is horrendous. Ballplayers do get hurt. The fences are very low all around, they are full of holes.

> There is wires that stick up just like this. The pipes aren't hooked together. When a

ballplayer reaches over the fence to get a ball he will rip his own arm open. I have seen Wayne Beck, who is the treasurer for the city, who used to play in my softball league go over a fence at South Side complex, get caught by the seat of his pants. You know, I can laugh about it today and Wayne probably would laugh, too, you know, but now it's dangerous. It's so dangerous up there.

For eight years I was up there we didn't even have a job johnny. We had no where -- no facilities whatsoever. I used to go to Robert Scopoletin's office, he hated to see me coming because I would be there, "Bob, we need a job johnny."

Well, we fought so often that I finally threatened to bring a recycling can full of urine to his office on Monday and I finally got the job johnny, but I did -- he never told me that it wasn't going to be cleaned either, so most of the children in the neighborhood would tip it over and that's how it got cleaned. Now, the last four or five years I will say we do have a

	30
1	job johnny, it is cleaned.
2	Many, many people use the park.
3	There would be a lot more softball leagues
4	there, too, but it's a terrible place.
5	First base I had a ballplayer put up what I
6	call a chicken fence, it cost him \$40.
7	There was no there is no, like, a very
8	low fence there and there is no gate. A
9	woman was sitting there, she got hit in the
10	side of the face she broke her teeth and
11	part of her face. This is going back a
12	couple of years. You know, she could have
13	sued the city, she didn't. And umpire was
14	hurt this year. A ball took a bad bounce on
15	the lip that's on the field itself and hit
16	him in the face. I sent him to the
17	hospital. I said, "Please check and see,"
18	because he was bleeding from the nose,
19	luckily his nose wasn't broken. There was a
20	ballplayer taken away in an ambulance. The
21	ball hit and bounced and went up at the
22	third base, hit him in the eye. I mean,
23	this is a constant thing, so that's just
24	part of the ball field that needs to be
25	fixed.

1 There is, not recently but there was a lot of the vandalism at the ball field at 2 3 one time and I had to bribe the children that would come there and I'd go to the 4 store and buy them chips and that at the 5 Dollar Store and said to them kind of, 6 7 "Watch the field and I'll give you chips 8 every week." 9 You know, so the vandalism kind of 10 stopped in that way. As far as the 11 playground, it's in desperate need up there. 12 A little girl brought me a syringe one day. 13 A syringe. She was only about five years 14 old, she found it at the playground. The bolts stick out, I mean, it's really, really 15 16 When you said that they went here and bad. 17 there and here and there asking for this and 18 that and the grants they need everything up 19 there. That field is over 85 years old I 20 believe nothing has been done in 85 years. 21 Thank you for your time. 22 MR. WECHSLER: Just a question about 23 I was up there the other day, the left field 24 fence how big do you think it would have to 25 be?

	32
1	MS. WATNOSKI: Well, let me just
2	if you don't mind me speaking another
3	minute, approximately two years ago there
4	was a ballplayer that worked for, I won't
5	mention the company, it was on Keyser
6	Avenue, it's a fencing company. I asked him
7	to get his supervisor hooked up with a
8	Recreation Department because they said they
9	could probably donate or at least give us a
10	cheaper price for fencing and maybe put up a
11	netting. Well, I don't know what
12	transpired, I was just the middleman, I
13	don't know what transpired between the two
14	of them but it never occurred. Then I went
15	to Coal Street in Wilkes-Barre, which is
16	near Sherman Hills project, it was an awful
17	looking field. Well, you should see it now,
18	it's beautiful. It's almost like our ball
19	field the way street is there, except there
20	is no homes. The project goes up the hill.
21	They have all high netting, and what you
22	need to do is you need to put polls up and
23	then put the netting, and it's mostly to the
24	left center and left side, that's where
25	their homes are.

	-
	33
1	And, like I said, I feel really bad
2	and I wish that we could do something. I
3	hate to see us have to leave the area, you
4	know, and I don't know what else we could
5	do, but whatever you could do for us,
6	whatever money you could give us for that
7	place really nothing has been done up there
8	at least in the time that I have been up
9	there. Thank you.
10	MR. WECHSLER: Thank you for all
11	your work with the softball league. I was
12	privileged to play for 20 years in the
13	Friday night league and then I got too old,
14	but I never saw the outfield fence.
15	MS. WATNOSKI: Before the South Side
16	Complex closed I was the last one to run the
17	Friday night softball league there and it
18	was a lot of fun. Thank you.
19	MR. ROGAN: I will say I have only
20	played at that field a few times and,
21	unfortunately, I'm not good enough to hit a
22	home run so I didn't hit any of he houses,
23	but I will say there needs to be a larger
24	fence because some of the guys that are
25	better could hit home runs to your houses

basically at will. If they want to hit there they could hit it there. Another field in Taylor that I have played at has the higher fence and there is not even houses back there, it's just woods and they do have the higher fence, so something definitely needs to be done to protect the houses and players, too. I have seen it firsthand. I haven't played in a few years, this is a few years just playing pick up games, you know, it's in bad shape the fencing.

MR. WECHSLER: Peg Ruddy.

MS. RUDDY: Good evening. Thank you for your time. I'm Peg Ruddy, I'm the executive director of Women's Resource Center. The center next year is going to celebrate it's 40 anniversary of service to our community. Ms. Aebli spoke about the scoring process and so I'd like to tie my advocacy efforts into those standards.

Need. We last year served over 700 woman and children from Scranton and alone. Woman who were battered, who were not safe in their own homes. Woman who were sexually

abused or the children and that represents the majority of our program participants. We are the only game in town, the only place for victims of domestic violence and sexual assault, teen dating violence and stalking to turn to and we have been great stewards of federal dollars.

I have been with the agency for 32 years, the request that we have into CDBG tonight is for \$42,000. We want to do some security upgrades in our building which are essential to keeping our clients safe. Ιf you drive by our building in a lower Hill section, you can see that our parking lot is in terrible shape but we don't anybody to fall and we would like to get that done. We had it done five years ago and, unfortunately, the quality of the work of the person that -- you know, some of us get poor quality work so we really just want to get that replaced.

We need a lot of lighting so that as clients are coming in and out of support group in the evening, especially during the winter months we want them and their

	36
1	children to feel safe, and we also want to
2	do some renovations inside of the house.
3	Capacity, we have had that building
4	since 1986 and it's actually over 125 years
5	old and it used to be Governor Scranton's
6	maternal grandmother's home. We have kept
7	the house in fine shape and we want to offer
8	a really nice place. You know, picking up
9	the paper any day I'm sure you do there is
10	not one day and a week that goes by that
11	there is not an article in the Scranton
12	Times about one of our fellow residents
13	being beat up or sexually abused and we are
14	the go-to team and we really rely on CDBG
15	and Linda's team to help us keep the
16	building nice and to keep our services
17	relevant.
18	And financial, I have got a fiscal
19	director that's been in the agency 33 years
20	and continually looks to upgrade our
21	financial records. We always have a clean
22	audit. And again, I total budget is \$2
23	million and we are very good stewards of the
24	federal, state and local dollars.
25	The other thing I want to talk about

is about leverage that we are using. We are in process of actually when it's done I'd love to show you around, we have a carriage house on our campus in the Hill section and we are in the process of remodeling the carriage house and so to date I have \$100,000 of this local share money, I have \$75,000 from the Moffat Foundation, we have \$25,000 through Kathleen's Crusade and we are going to add this \$42,0000 so it will be one big package, so we are able to, you know, leverage additional dollars so I hope that you see our project as being worthy of your support and I thank you for your time. MR. WECHSLER: Thank you. Just relating to that MR. GAUGHAN: project if I could jump in for a second, and this goes back to the scoring, and maybe I'm

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

this goes back to the scoring, and maybe I'm missing something, but that specific project received a score of 100 percent so that doesn't that have any bearing on what project gets funded? In other words, like what I said before for the demolition of hazardous structures only got at 51 percent and they got 200,000 so how does the scoring

	38
1	fit in there? I mean, if you just threw
2	that out the window would it just be a
3	discretionary figure?
4	MS. AEBLI: No, we looked at the
5	funding that they received in the past for
6	renovations, you know, it was just who gets
7	what.
8	MR. GAUGHAN: So it's not based on
9	the score then?
10	MS. AEBLI: It is. There is lot of
11	100's here, but we are received they have
12	received rehab in the past.
13	MS. GAUGHAN: Okay. Thank you.
14	MR. WECHSLER: That completes the
15	MR. ROGAN: I have one more
16	follow-up and, Mr. Hickey, forgive me I did
17	say that I would not bring up the Boscov's
18	issue, but in light of some of the
19	discussion
20	MR. HICKEY: We actually just spoke
21	of that.
22	MR. ROGAN: Just one question
23	regarding that, I do see there is \$201,000
24	in here for payment of the Section 108 loan.
25	If that had not been in default by the Mall

	39
1	Partners would that funding be available for
2	North Scranton group and all of these
3	MR. HICKEY: The answer is yes.
4	What I just spoke to Ms. Aebli about is I
5	think that should be the outcry from the
6	City to Mr. Boscov to make good on that
7	promise that if it's a 108 guarantee,
8	forgetting the rest of the funding for a
9	second, but I believe the promise was made
10	in the past that if they were 108 funds
11	those funds would be returned and paid back
12	to the city.
13	This is an ongoing issue. This is
14	it not the first year that that payment is
15	included in there. There have been payments
16	for several years now on that particular
17	default so that money would be available.
18	MR. ROGAN: And on that issue, city
19	council did send a letter, and I have a
20	large stack of other letters here requesting
21	that Mr. Boscov make good on his obligations
22	to the city and in terms of the donation
23	that he claimed he promised that he would
24	make when council had a caucus. If that
25	money does come in, I would hope that we

	-
	40
1	would allocate it to some of the groups that
2	weren't funded fully through the proposal
3	and weren't funded at all.
4	MR. HICKEY: And we are going to
5	follow up on that as well.
6	MR. ROGAN: Great.
7	MR. WECHSLER: We have completed the
8	sign-in sheet, is there anyone else who
9	would like to address us at the meeting?
10	MR. SQUITZ: Good evening. I wasn't
11	prepared to speak tonight but my name is Ken
12	Squitz and I live on Gilman Street. I'm the
13	one who had the house hit by the ball. This
14	isn't the first time our siding has been
15	hit. There has been dents in the siding.
16	The window was hit with a ball, thank God it
17	didn't break. Right now I'm driving a
18	Toyota Rave 4 but my car before that was a
19	Toyota Camry. My Camry was hit and I had
20	the perfect outline of a baseball and it
21	happened on a Sunday morning and,
22	unfortunately, whoever did it was pretty
23	strong.
24	We need to have a fence. We avoided
25	a very, very serious problem about maybe

two, three years ago during the summer. A ball was hit, a gentleman who lives on the other side of me was standing with his daughter, who was a child. She had her back to the ball field, the ball was coming, he happened to see it, he shoved her out of the way and where the ball hit it would have probably struck her directly in the back of the head. That could been a catastrophe.

We need to have a netting to protect our property, protect other kids, our grandchildren. I have an eight-year-old granddaughter, I don't like her out in the front yard when they are playing ball. I don't like it. It's dangerous. I'm not trying to sound like a doomsday, but God forbid one of our kids, even a child going on their bicycle down the street and every day, every day in the summer there is bicycles, there is children and those balls come flying out of there, God help us if one of those kids ever get killed. I couldn't live with myself without coming up here and saying anything. I wasn't going to speak tonight, but I just had to for our

	42
1	kids. Thank you.
2	MR. WECHSLER: Thank you. Anyone
3	else?
4	MS. SCHUMACHER: Marie Schumacher.
5	I just want to thank Linda and her staff,
6	they are always responsive, they take their
7	jobs very seriously and to paraphrase the
8	good Lord the needy will always be with us,
9	so there is always going to be more needs
10	than money and they're tough decisions that
11	they have to recommend and that you guys
12	have to do and I hope Mr. Hickey is going to
13	continue with his pursuit of nonpayers and
14	maybe get some more back in the coffers that
15	way and maybe we could do more things, but I
16	would like to thank both their
17	responsiveness and the dedication that they
18	have to their jobs
19	MS. AEBLI: Thank you.
20	MS. SCHUMACHER: and the citizens.
21	Thank you.
22	MR. WECHSLER: Anyone else?
23	Anything from council?
24	MR. PERRY: Yeah, before we wrap up
25	it's, you know, it's such a great thing

having these funds. Obviously, it would be better if we had more. As Ms. Schumacher said, the need definitely outweighs the money that we have and, I mean, no one has played more softball than me except for that guy, he probably beat me 100 time in my career and I have played softball over and, you know, there is nothing more prideful than, you know, a team on a really, really good field and that's not even counting the safety factor of it and the surrounding neighbors whether it's property damage or, you know, children obviously.

22

23

24

25

You know, but unfortunately the money that we have is the money that we have and us as a community are going to have to use that as wisely as possible. No one is going to be thrilled with the overall outcome. Some people are going to get less than they wanted, some people might not get any, it's a very tough job. I don't envy you guys for what dividing up that pie, but, you know, we are going to do the best we could and we are at the point now it's time to prioritize jobs within our scope, our

community, what do we want to accomplish first and sometimes we have to prioritize what actually we are willing to do this year because there is always next year that we can reapply for esthetic things, but the safety is first, whether it's ballplayers or the children on the playground or the children on their bikes on the sidewalk and the streets, and once this comes out and is made official, you know, I don't want you guys to think that that's where council's jobs end. I'd be happy personally, I'm not going to speak for my councilmen, they can do as they want to, but my door is always open, my phone is always on, you know, for whether we need to get netting there and then let's make it happen, make a collaborative effort, can we find someone willing to donate, can we find somebody to give it cheap? I saw a flagpole that you want, maybe we can do something with the Veteran's Committee and do something to help raise that flagpole and have a ceremony thee with the and defray the costs. You know, I'm a firm believer if there is a will there

1

15

16

17

MR. GAUGHAN: And I'd like to add to that, a lot of these people in the audience tonight are my neighbors so it's great to see them come out tonight, and they spoke to this park and this park is important to me and all of these people because if you live up in this neighborhood you know that this is the literally the heart -- it's the heartbeat of North Scranton.

18 Now, keep in mind what these people 19 have had to deal with the last few years 20 with the bridge that has been out, they've 21 had to deal with that whole issue, and they 22 have had to deal with a park that is not up 23 It's not up to ADA standards, to standards. 24 it's not up to any kind of safety standards 25 if you walk through that place, and on top

of that you have a major housing development Bangor Heights with hundreds of children that play there each and every day, and I My own child plays there, take him see it. over there almost every day so I think when we talk about priorities we need to find a way to possibly fund this a little bit more so that this project can see the light and we can see some of the things that were in that proposal come to light and help these neighbors out, because like I said and as Mr. O'Hearn said neighborhood parks are the life of the neighborhood and when you have a park that is well kept and the neighbors obviously take pride in it you don't see as much crime, so I think that we need to shift some of our priorities here and find more funding for that. Thank you.

23

24

25

MR. EVANS: If I could make a brief comment, it's sort of ashame that we have to fund parks this way. You know, at some point in the future I hope we get to the point where we actually have a capital budget and Parks and Rec would actually have a budget that we'd have an ongoing

maintenance program, ongoing improvement program so that the parks are taken care of the way they should be taken care of and not waiting 25 years for you guys to come to us and say, "We need everything again because nothing was done in the last 25 years."
